## ■ PROFILE

Highly motivated Information Science student focused on artificial intelligence, cybersecurity awareness, data analysis, and ethical digital systems. International experience, analytical mindset, strong motivation. Currently working on digital art exhibitions exploring AI interpretation and organizing cybersecurity workshops for elderly communities.

## ■ PERSONAL STATEMENT

**Fast learner. Highly motivated. I give 110% to everything I do.** Open to constructive criticism and actively using feedback for growth. My analytical approach combines technical expertise with ethical considerations, making me particularly effective at bridging complex technical concepts with human-centered applications.

## ■ EXPERIENCE

- **Google — Assistant (Internship) | May 2025 – Present**
  - Participating in intensive cybersecurity education programme under Google Cybersecurity Seminars
  - Receiving comprehensive instruction from field experts
